However, There Is a Good Variety From Which to Select Sunday Dinner.

Friday was a comparatively busy day on the retail provision market, notwithstanding the fact that the merchants did an excellent business Thursday forenoon and anticipate a heavy demand today. There has been but little change in the supplies that have arrived at the market since Wednesday, except that Utah strawberries are becoming more plentiful and riper, and some extra fine Hood River strawberries are now being sold at 20 cents a box. Utah stawberries are selling at 25 cents a box. In view of the fact that the supply of strawberries during the past week has been limited and the demand is fast increasing, it would perhaps be advisable to purchase the Sunday's supply early today, for some of the more conservative dealers predict a shortage.

Other provisions will sell today at the following prices: Other provisions will sell today at the following prices:

Another evidence of progress in cotton spinning was the increase in quarterly dividended at Fell River to 2.21 per cent. against 1.32 per cent last year and 2.14 per cent in 1962, the most prosperous of recent years.

Railway and structural orders are the most urgent in demand for products of streil and as yet there is little evidence of curtailed plans because of unfavorable reports or the difficulty experienced in raising tunds for construction.

Wheat in United States Said to Be in Good Shape: Bad News From Abroad.

CHICAGO, May 31.—Reports of injury to the wheat crop in Europe had more influence on the local market today than favorable reports from the Western wheat field. July closed 1976 higher: September, 1976 higher, and December 1c higher. July corn closed ic higher; oats it and provisions 75c to 12% higher.

Wheat was weak at the opening. Continued wet weather throughout Kansas. Nebraska and the Southwest in general brought out free offerings, the tendency to sell being increased by the carly Liverpool cables, which showed modetate declines. But commission houses were lively bidders, and buying soon became general. A private cablegram stated that the wheat crop of Roumania. Germany and southern Russia was severely injured by the drouth and that Russia was an open buyer of wheat, and this had much influence on the local market.

The market was quite strong after the first half hour, prices of all options adfluence on the local market.

The market was quite strong after the first half hour, prices of all options advancing more than 2 cents. Weakness again developed late in the session. A statement by a St. Louis trade journal that growing wheat, with the exception of that in Texas and Oklahoma is generally in good condition, started reslining sales, which gradually hammered prices down. A report that the green big had extended its operations to Minnesota and South Dakota was a new feature of the situation.

The market closed casy. July opened

Corn was strong the greater part of the session, but eased off considerably late in the day on profit-taking. The market closed stendy. July opened 18% chigher at 53,00% for advanced to \$4.00%, and closed at \$5.01%.

An advance of over 2 cents in July was the feature of trading in oats. Cash houses and shorts were cager bidders for that delivery, but offerlings were meager. July opened \$6.00% and closed at \$9.00%.

Trading in provisions was ouler. At the close July perk was up 12% July lard, \$4.00% for the LEADING FUTURES. RANGE OF THE LEADING FUTURES.
